

AURORA / ALUMINIUM & GLASS

Crafting Light.
Defining Space.

ILLUSTRATIVE PRODUCT & SERVICE CATALOGUE • CONCEPT EDITION

Architectural windows

Frame the view. Shape the atmosphere.

Window concepts can be tailored around opening size, ventilation needs, frame finis
h and the character of the building.

Design considerations

- Frame profile and finish
- Opening configuration
- Glazing selection
- Hardware and detailing

Sliding glass doors

A seamless connection between spaces.

Sliding door concepts create generous openings and bring daylight deeper into livin
g and working environments.

Design considerations

- Panel configuration
- Track and threshold detail
- Handle and lock selection
- Clear opening requirements

Glass partitions

Define space without closing it in.

Interior glass partitions can help organise offices, studios and contemporary homes while maintaining visual connection.

Design considerations

- Framed or minimal-look systems
- Privacy and transparency
- Door integration
- Acoustic requirements

Glass balustrades

Safety-minded design with an open view.

Balustrade concepts combine visual lightness with careful attention to fixing detai
ls and applicable safety requirements.

Design considerations

- Fixing approach
- Glass specification
- Handrail options
- Site and code review

Custom aluminium & glass

A considered solution for your project.

From shopfronts to bespoke interior details, each concept begins with site conditio
ns, measurements and the intended use.

Typical project journey

- Initial discussion and requirements
- Site measurement and feasibility
- Material and finish selection
- Quotation and installation planning

Illustrative concept only. Final specifications depend on site survey, engineering and local requirements.
